

WILDERNESS
SYSTEMS®

2016 Fishing Product Catalog

A.T.A.K.

The A.T.A.K. – Advanced Tactical Angling Kayak – strikes the elusive balance between speed and stability with its long waterline, highly walkable surface, and wind-shedding hull. The open deck design is optimized for accessory customization with storage opportunities intelligently located throughout. The AirPro MAX high/low seat comes standard and is complemented by the new AirPro 3D (sold separately) seat that provides an elevated perch position for the angler to paddle or cast from for unsurpassed visibility. Top it off with the Flex Pod OS console for electronics integration and compatibility with the new Helix MD™ Motor Drive (sold separately), and the A.T.A.K. clearly sets a new standard for the kayak fishing experience.

TARPON 130X **NEW**

Go anywhere and catch anything in the new Wilderness Systems Tarpon 130X. Building upon the heritage of the revered Tarpon – the craft that pioneered kayak fishing – the Tarpon 130X maintains a sleek, speedy, and exceptionally stable platform with modern shaping and abundant feature upgrades such as the versatile Flex Pod OS, allowing for storage, electronic and propulsion opportunities with Helix MD™ Motor Drive compatibility. The ultra-comfortable AirPro LITE seat features a new slide-on-track system for increased fore/aft trimming while maintaining all of the comfort features found and loved in the AirPro MAX seat.

TARPON ANGLER

For the angler poised to fish all season in all waters, the Tarpon is the ultimate workhorse. Its award-winning design offers both agility and speed to zip from spot to spot, but with the right amount of stability for fighting fish or rough waters. The intuitive design allows for a wide range of body sizes with easy access to gear and the exclusive SlideTrax™ accessory system to trick out your kayak any way you want. Featuring the Phase 3® AirPro seating system for added ergonomic comfort and easy adjustability.

RIDE X MAX ANGLER

Enter the Ride 115X MAX Angler, featuring a removable console for integrating and consolidating fish finder electronics, and introducing the new AirPro MAX high/low seating system poised to give kayak anglers the competitive advantage they need to sight fish from the seat of their boat. Fully functional in existing Ride models, the patent-pending seat has a full forward/aft trim range and a three phase High, Low and Recline positioning achievable without any clipping or loosening of straps.

RIDE MAX ANGLER

Intended to optimize performance and capacity with the latest innovations – including the new AirPro MAX high/low seating system and a wider standing platform – the Ride 115 and 135 MAX are designed bow-to-stern for anglers looking to push their limits. The Ride 115 is compact and nimble for extra responsiveness in tight rivers and creeks, while the Ride 135 features extended length for speed and glide, ideal for covering miles to get to the bite.

THRESHER

Introducing the Thresher 140 and 155 – the next generation of high performance sit-on-top kayaks. Built with both the aspiring and advanced angler in mind, the efficient hull satisfies the need to paddle long distances and is complemented by voluminous rails that provide stability for breaching waves or fighting fish. After a long day on the water, the rockered keel allows the Thresher to gracefully surf its way back to shore. The sleek deck is optimized for maximum storage, capacity and accessibility, and features several cutting-edge advancements including the Flex Pod OS removable console for consolidating fish finder electronics.

COMMANDER ANGLER

The perfect combination of a classic fishing platform and modern outfitting. Built to offer three different positions from which you can cast due to the hybrid sit-on-top/sit-inside design, the pontoon-style hull is wide enough to stand but still offers a burst of speed. The dual-seating system allows anglers to sit fully on top, and includes the folding, removable AirPro Freedom Elite seating system, as well as a molded-in elevated seating area for added visibility on the water.

HELIX MD™ MOTOR DRIVE **NEW**

The power of Wilderness Systems is on full display with the introduction of the new Helix MD Motor Drive. Partnering with the proven technology of Torqeedo, the new Helix MD Motor Drive is a step ahead in the world of kayak propulsion technology. With top speeds reaching up to 6 mph at a range of around 20 miles¹, and featuring a solar-rechargeable² lithium battery that lasts up to 8 hours¹ and can charge while underway, the Helix MD Motor Drive simplifies the experience of kayaking by taking you farther, faster. The unit is lightweight at only 15 lbs. including battery³, and comes equipped with an intelligent remote throttle that displays your GPS-calculated speed, remaining range and battery runtime. With fully variable forward/reverse functionality, set the throttle to the speed you want and you're free to fish with two hands. Quiet, low-maintenance, and easy to integrate and use in compatible Wilderness Systems kayak models⁴, the Helix MD Motor Drive is an all-access pass for all kayakers of all ages.

All Wilderness Systems kayaks are designed and manufactured in the U.S.A., excluding composite-construction Pro models.

Colors may vary slightly from those shown in catalog. Color combinations (Desert Camo, Wildy Camo, Dusk, Mango, and Flint) will vary from those shown in catalog and are unique for each boat we produce. Variations in color are not covered by warranty.

Polyethylene expands and contracts with changes in temperature and humidity. Actual dimensions can vary from those shown in the Specifications Chart due to molding process and/or exposure to extreme hot or cold temperatures. Slight variations are not covered by warranty.

Specifications and features are subject to change.

All Wilderness Systems kayaks are covered by a Limited Lifetime Warranty. Some limitations apply. Visit WildernessSystems.com for full details.
